

Letter of Recommendation (Academic)

Letter of Recommendation

(d/m/y)

To
Dean of Admissions, (University Name)

Madam/Sir

It is my great pleasure to recommend my student XXXXX, whom I have mentored during his 3 years of bachelor's degree in mass media. As a student, Mr. XXXXX was logically inquisitive which translated very well into his career. In my opinion, he is well prepared to pursue MS in Social media and Mobile Marketing from (University Name).

In my tenure as a professor at (college name), I have taught XXXXX for five semesters in (mention subjects). From the onset, I noticed him for his atypical probing which indicated that he came well prepared in my classes. It was clear to me he has productive zeal to learn and spent constructive hours in research and studying while out of the class too.

To my knowledge, he has avidly participated in community activities as well. He was the Sub-Head of the Creative and IT team of the College and fulfilled his duties as a core organizing member of annual college festival: 'Montage'. He particularly shone at the festival for the accolades he received for his motion video documentary on the Indian visionary, Dr. Babasaheb Ambedkar. He impressed the judging committee with his narrative and media production skills and his work was awarded 2nd prize at the inter-college festival.

XXXXX harbors strong ambitions for his academia and career. Under my supervision, he was diligent, collaborative and utterly mindful of effective time management. I strongly recommend him for advanced studies at your esteemed university and wish him the very best of luck in his endeavors.

Warm Regards
Dr. XXXXX
Associate Professor, (University Name)
