

## Letter of Recommendation

Date:

For Kind Attention of:

The Admission Committee  
University of Central Oklahoma, USA

Mam / Sir/s

I am writing this letter to recommend Mr XXXXX to be admitted in the Master's Program at your university. I have worked with him for the last 2.5 years at XXXXX, where I am employed as the Service Delivery Manager and XXXXX, works a Systems Engineer. We have collaborated to work on a common project of ecommerce website named XXXXX which operates a popular grocery website in the United Kingdom.

Through numerous experiences, while working with XXXXX, I can comfortably testify that he has exemplary skills and knowledge of the technological domain. Additionally, I was also impressed with his energy to proactively trouble shoot website bugs and making sure that all SLAs are met for every batch that we delivered to client.

As the Service Delivery Manager of the project, I worked with XXXXX on multiple functionalities of the website. Developing them from the scratch under careful purview of client requirements and then testing the development in Test and Production environments. I can vouch for his capabilities as a Data Marksman who is proficient with full stack technology portfolio and often steps out of the conventional perimeters of prototypical development.

As a co-worker, I found him to be co-operative, patient and an excellent team player and none of us were surprised when he received the coveted award of the 'Best Team Player' at XXXXX in 2020. I wish him best of luck with his Masters education and strongly recommend his application to be accepted at the University of Central Oklahoma.

Please feel free to reach out me to me if you have any questions in this regard.

Thank You

Ms XXXXX

Service Delivery Manager, TXX
